Committees

Planning Council - is a diverse group of people living with HIV/AIDS, service providers, and concerned community members. Our group partners with the Middlesex County Human Services Department to identifying the needs of the HIV/AIDS community and develop a comprehensive plan to meet those needs.

Executive Committee - consists of the officers of the Planning Council and the Chairpersons of the Standing Committees. They set agendas for meetings, review overall administrative functioning, and liaison with the Project Officer who oversees the Planning Councils in the Northeastern US.

Priorities Committee - this committee oversees the annual needs assessment, develops and updates the standards of care for each service category, and is where priority setting and resource allocation takes place.

Membership Committee - this committee reviews and recommends new members, updates by-laws, oversees elections of new officers, provides orientation and training to newly appointed Planning Council members.

Our Voices - is a committee made up of HIV+ persons whose goal is to address the concerns, needs, and issues of the HIV+ community and present them to Planning Council

Administrative Assessment and Evaluation Committee – this committee evaluates the efficiency of the administrative agent and reports that evaluation to the full Planning Council. It also is responsible for evaluating the effectiveness of service delivery models.
