This section of the Resource Guide will provide you with an overview of some common programs that may be of interest to individuals with HIV/AIDS. Please note that this section should only be used as a guideline, and if you want additional information about any of these programs, please contact the program staff directly for assistance.

THE AIDS COMMUNITY CARE ALTERNATIVES PROGRAM (ACCAP)

What is ACCAP?

The AIDS Community Care Alternatives Program (ACCAP) is a Medicaid waiver program created to help eligible individuals remain in or return to the community rather than be cared for in a nursing facility or hospital setting. ACCAP can serve up to 750 individuals at any one time and is statewide.

How do I qualify?

Participants must be in need of institutional care and meet, at minimum, the nursing facility level of care. Children between the ages of 13 and 18 and all eligible adults must have a diagnosis of AIDS, and children under the age of 13 must have a diagnosis of AIDS or HIV positive. There are income criteria as well as disability determination criteria; please contact the program staff to discuss your eligibility.

What services can I receive?

Potentially coverable services include case management, private-duty nursing, personal care assistant services and hospice care.

How do I apply?

To apply, contact the Division of Disability Services, Office of Home and Community Services, if receiving Social Security Disability (SSD) or Supplemental Security (SSI), at 609-588-2620. If you have no Medicaid coverage, contact your local Board of Social Services.

Income: You must be a person with an annual income of no more than $30,000 per year. An additional $10,000 per year is allowed for each dependent, such as a wife or child, up to a maximum of $70,000.

Medical Certification: You must present a letter from a physician that certifies the medical necessity of receiving the covered medication(s).

Consent: You must sign a consent form which attests to the accuracy of the information and allows for verification.

Other Insurance: If you have other forms of reimbursement such as Medicaid, PAAD, or private insurance, you may not be eligible for our program unless you have received the maximum benefits allowable under these plans.

What drugs are covered?
A wide range of FDA approved medications for the treatment of HIV and AIDS are covered. Your doctor or clinic will tell you which of the approved drugs are appropriate for you.

Where do I get my medications?
You can get your medications free of charge from any Medicaid participating pharmacy or pharmacist in New Jersey.

No. The New Jersey HICP will only be used to pay for insurance that you already have and are in danger of losing.

Who is Eligible?

An individual can earn up to $51,050 annually. An additional $17,400 is allowed for each household dependent. Income guidelines are updated in March each year. In addition, your family cash assets (such as bank accounts) must total no more than $25,000.

How Do I Apply?

You can request an application from the New Jersey HICP office by calling 1-800-353-3232. The completed application must be returned to the New Jersey HICP Office.
