## **GRANT ACTIVITY**

---

### **FUNDED GRANTS**

#### **GBIRT: A randomized control trial of Gambling SBIRT in Ohio**

\$115,496, Ohio Mental Health & Addiction Services

Co-Investigator (with PI Nower, Co-I Anthony)

2019-Present

This funding was awarded to investigate the effectiveness of a Gambling Screening, Brief Intervention, Referral for Treatment (SBIRT) in identifying individuals who experience gambling problems, evaluate the relationship of Gambling SBIRT to increased treatment utilization, and examine the relationship of Gambling SBIRT to decreases in gambling behavior and gambling severity, and improved mental health functioning in Ohio.

#### **Developing an SBIRT intervention for problem gambling**

\$2,850, Rutgers University Research Council

2019-2021

Principal Investigator

This funding was awarded to pay participants at the New Jersey sites for the Gambling Screening, Brief Intervention, Referral for Treatment (SBIRT) project.

#### **A dynamic framework for gambling treatment: From counselor training through treatment follow-up**

\$72,898, Kindbridge, Inc.

Co-Principal Investigator (with PI Nower, Co-PI Anthony)

2021-Present

This project establishes a systematic framework for the treatment of gambling and gaming clients in an online environment.

### **GRANTS UNDER REVIEW**

#### **An investigation of Wager Score usage, gambling behavior, and gambling-related cognitions**

\$36,718, Wager Score LLC

Principal Investigator (with co-PI L. Nower)  
2023

Wager Score is an affordability tool that provides a personalized “Wager Score” to individuals based on a proprietary algorithm that tracks their discretionary income, deposit methods for gambling, and the frequency of deposits. The individual’s Wager Score and subsequent notifications are intended to help them gamble responsibly and within their financial means. This study, among young adult sports gamblers, seeks to understand how or if use of this affordability tool translates to changes in gambling behavior, as well as the gambling-related cognitions experienced during play.

### **Gambling and emerging adults: Understanding risk pathways**

\$391,497, International Center for Responsible Gaming

Co-Investigator (with PI Nower, Co-I Anthony, co-I van der Maas)

2023

The overall goal of this Center of Excellence Proposal is to conduct a comprehensive, systematic study of risk factors that impact gambling among emerging adults to inform policy, education, prevention, and treatment efforts. Translational knowledge from this project will be disseminated as evidence-based materials and tools that will be useful for the general public as well as for treatment providers, policymakers, and researchers.
