

RESULTS OF THE CAMPUS CLIMATE ASSESSMENT

Rutgers University–New Brunswick

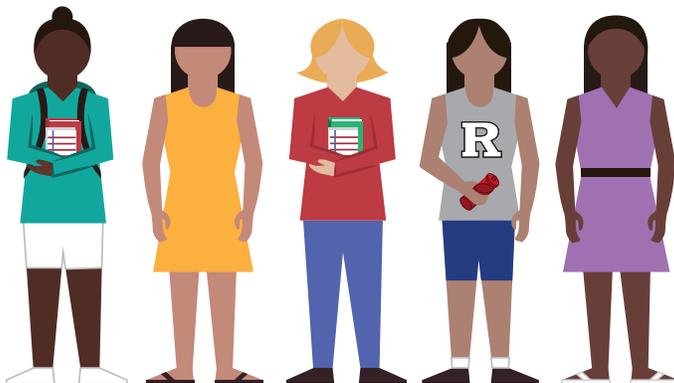

#iSPEAK

This document addresses the issue of campus sexual violence which may be a difficult topic for some readers.

24%

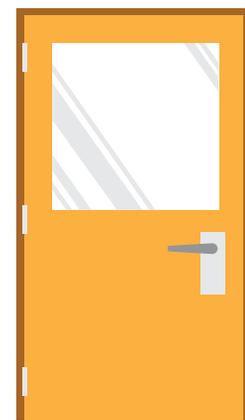

Twenty four percent of undergraduate women reported experiencing sexual violence before coming to Rutgers.

1 in 5

Twenty percent of undergraduate women reported at least one instance of unwanted sexual contact since coming to Rutgers.

less than 11%

Less than eleven percent of undergraduate victims disclosed incidents of sexual violence to campus resources.

5%

Five percent of undergraduate males reported at least one instance of unwanted sexual contact since coming to Rutgers.

2X to 3X

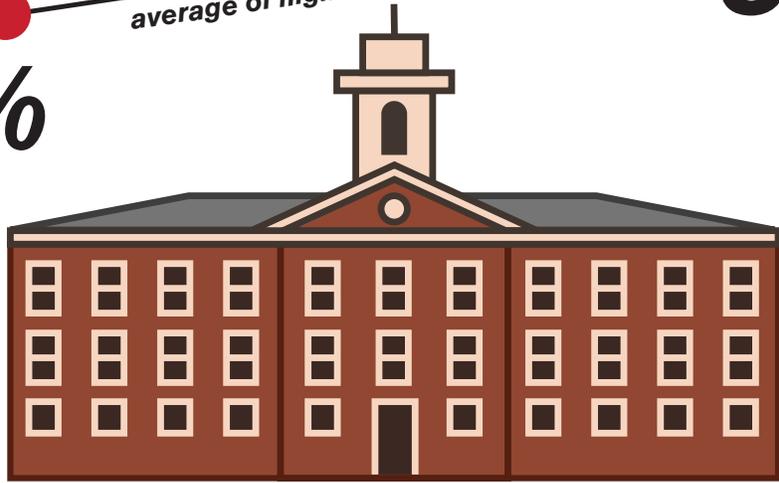

Students who did not identify as 100 percent heterosexual were two to three times more likely to experience sexual violence both before coming to college and since becoming college students.

Other higher education institutions estimate rates of sexual violence among undergraduate women between 19 and 35 percent

One in five (20 percent) of all Rutgers undergraduate students have had another Rutgers student tell them that they had experienced sexual violence.

Seventy-seven percent of students who were victimized since coming to Rutgers–New Brunswick and who told someone about it, told a close friend.

To receive assistance or resources, visit vpva.rutgers.edu. To speak confidentially with a trained advocate or counselor, contact the Office for Violence Prevention and Victim Assistance 24 hours a day, 7 days a week at 848-932-1181. Services are free and confidential to all members of the Rutgers University community.

For assistance outside of Rutgers, please visit the New Jersey Coalition Against Sexual Assault (njcasa.org) or the Rape, Abuse, and Incest National Network (rainn.org).

A majority of students who took the survey expressed that they would like to learn more about sexual violence.
