I. **Catalog Course Description**

This course focuses on therapeutic interventions for children (approximately infancy to middle school age), with a particular emphasis on how their developmental needs are addressed within various system structures (e.g., family/household, school, community settings). As children generally reside in families, various family forms and risk statuses will be examined with a focus on anti-oppressive social work practice.

II. **Course Overview**

This course provides assessment, engagement, and intervention strategies for children involved with various child-serving systems. Emphasis is on assessment of developmental aspects of child and family well-being (with a broad and diverse definition of family), identification of risks, strengths and resiliency factors, and sociological and psychological knowledge of how family and community contexts affect children. Focus is on advanced direct practice with children who are at risk because of systemic stressors and/or mental health challenges. The importance of attachments and stability to children’s resilience and well-being are emphasized. Crisis intervention skills are addressed as well as case management, and work with other community service systems.

III. **Place of Course in Program**

This course is particularly appropriate for those who intend to work with families and children. It is a Clinical Social Work elective. Prerequisite is the satisfactory completion of the Professional Foundation. Co- or prerequisite is CSW-I and a clinical level Field Placement.

IV. **Program Level Learning Goals and the Council of Social Work Education’s Social Work Competencies**

The MSW Program at Rutgers is accredited by the Council on Social Work Education (CSWE). CSWE’s accreditation standards can be reviewed at [www.cswe.org](http://www.cswe.org)

*Updated June 2021*
In keeping with CSWE standards, the Rutgers School of Social Work has integrated the CSWE competencies within its curriculum. These competences serve as program level Learning Goals for the MSW Program and include the following. Upon completion of their MSW education students will be able to: demonstrate ethical and professional behavior; engage in diversity and difference in practice; advance human rights and social, economic and environmental justice; engage in practice informed research and research informed practice; engage with individuals, families, groups, organizations and communities; intervene with individual, families, groups organizations and communities; and evaluate practice with individuals, families, groups, organizations and communities.

This course will assist students in developing the following competencies:

**Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice:**
Clinical social workers are fully grounded in the ethics of the profession, recognizing the dignity and worth of all individuals and the need to advocate for social, economic and environmental justice. Clinical social workers recognize the need to assess clients’ physical environment for the availability of safe shelter, food, water, and air. Clinical social workers are adept at recognizing where social and structural forces marginalize people and thus work to advocate for policies that promote justice, advance human rights, and promote environments in which all individuals can thrive. Practitioners in clinical social work:

- Contextualize all client conceptualizations (assessments) utilizing lenses of social justice, including aspects of identity and social location that may marginalize clients and/or contribute to their inequitable distribution of social and economic resources.
- Assess the availability of clean and safe shelter, water, food, air, and other environmental resources and help individuals, families, groups and communities to develop mechanisms to advocate for and maintain these environmental resources.
- Advocate for equitable distribution of all social, economic, and practical resources, including the availability of a competent clinical social worker with commitments to anti-oppressive, justice-oriented clinical practice.

**Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities:**
Clinical social work practitioners recognize the importance of the engagement process and understand the importance of differential use of self in initial encounters. Practitioners in clinical social work rely on the ecological perspective to inform the therapeutic relationship; are aware of how interpersonal dynamics and cultural factors shape the therapeutic relationship; and use relational techniques to develop a therapeutic relationship. Clinical social workers recognize how engagement with couples, families and groups may differ from individual approaches, and they develop differential engagement skills accordingly. Clinical social workers value collaboration and thus recognize the importance of clients’ input in the development of their treatment goals. Clinical social workers use the engagement process to help clients convey their thoughts.

*Updated June 2021*
and concerns within the therapeutic relationship as well as to other providers/stakeholders. Practitioners in clinical social work:

- Demonstrate an ecological understanding of the transactional relationship between emotional/behavioral difficulties and social problems (poverty, crime, social injustice, racism, classism, sexism, homophobia, and transphobia) and incorporate this understanding into client engagement. Reflect upon the ways these aspects shape the manner in which one engages and works with the client.
- Understand how members of oppressed groups—people of color, people with varying sexual orientation and gender identities, people with different abilities, people with severe and persistent mental illness—may require different methods of engagement.
- Identify ways to enhance collaboration with clients and promote their empowerment, including seeking their input and feedback regarding the treatment process and fostering their capacity to provide feedback to other members of the treatment team.

**Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities:**  
Clinical social workers select effective modalities for intervention based on the extant research as well as the client’s cultural background. Clinical social work practitioners integrate their knowledge of various individual, family, and group psychotherapeutic modalities, as well as crisis intervention techniques and community-wide referrals, to intervene effectively; demonstrate flexibility by tailoring interventions to suit the needs of multiple client populations; and understand the effects of the social environment on client well-being. Clinical social workers therefore recognize the need to intervene on mezzo and macro levels. Practitioners in clinical social work critically select, apply, and evaluate best practices and evidence-informed interventions; they value collaboration with the client and other professionals to coordinate treatment plans. Clinical social workers maintain knowledge of the communities they serve in order to ensure that clients are connected with relevant services and resources in an effective manner, while eliciting client feedback about how the interventions are impacting the client. Practitioners in clinical social work:

- Select psychotherapeutic interventions based on a critical knowledge of theory, research, and practice experience.
- Exhibit flexibility by shifting perspectives and interventions to suit the needs of clients, while recognizing that the multi-faceted assessment drives the selection of appropriate interventions.
- Demonstrate an ecological understanding of the transactional relationship between emotional/behavioral difficulties and social problems—poverty, crime, social inequality, institutional racism, sexism, religious and/or ideological bias, homophobia, and transphobia—and incorporate this understanding into their interventions.
- Intervene effectively with individuals, families and groups, while eliciting client feedback and knowing when to modify approaches.

*Updated June 2021*
V. **Course Learning Goals**

Course level learning goals primarily relate to the aforementioned competencies/program level learning goals as the course addresses policy analysis skills and competencies as well as addresses human rights and social, economic and environmental justice through the study of the evolution of the US welfare state and the emergence of the social work profession.

Upon completion of this course, students will be able to:

1. To understand a family-centered model of social work practice and family preservation as part of promoting children’s well-being under typical circumstances.

2. To identify children at risk, particularly those who experience societal oppression in various forms, and to learn strategies for promotion of resilience.

3. To develop cultural competence in assessing diverse family constellations in terms of their needs and their ability to protect and care for children.

4. To acquire skills in engagement, assessment and intervention in cases involving children in the context of their families and societal structures; to use these skills in a manner consonant with social work values, goals, and ethics.

5. To demonstrate understanding of reporting requirements and other legal requirements related to child abuse and neglect that is physical, sexual, or psychological.

6. To identify relevant institutions and work as part of an interdisciplinary team on behalf of children and their families and to appreciate the diverse roles of the social worker as well as the other professionals, child care staff, foster parents and others.

7. To analyze the structure and functions of various types of programs and critically evaluate their strengths and limitations as they are applied to various client systems.

VI. **School of Social Work Mission Statement and School Wide Learning Goals**

The mission of the School of Social Work is to develop and disseminate knowledge through social work research, education, and training that promotes social and economic justice and strengths individual, family, and community well-being, in this diverse and increasingly global environment of New Jersey and beyond.

School Wide Learning Goals: Upon graduation all students will be able to:

1. Demonstrate Ethical and Professional Behavior;
2. Engage Diversity and Difference in Practice; and
3. Engage, Assess, and Intervene with Individuals, Families, Groups, Organizations, and Communities.

*Updated June 2021*
VII.  **Textbooks**

**Required Texts**

**Recommended Texts**

Other required readings (separate from textbook) are available through the Rutgers University Library “Reading List” that is integrated into your Canvas course. To find your readings:

Click on the “Reading List” tab in the Canvas navigation bar to the left hand side of the course. Please note: this list contains links to articles and other required readings separate from the textbook (if applicable). Please follow the syllabus and/or Canvas Readings and Resources page in each module for more specific required readings and resources for each week (including textbook/media). For further instructions please click here for a video tutorial

VIII.  **Course Policies & Requirements**

This is a collaborative and professional learning community. Students are encouraged to make connections between the assigned course material and their other course work and Field experience. Students are expected to self-advocate, offer meaningful questions and comments in the class discussion and to share additional resources. Students are advised to communicate concerns, questions and requests to the Instructor early and often so as to be offered the highest degree of support and flexibility.

The RU SSW supports an inclusive learning environment where diversity, individual differences and identities (including race, gender, class, sexuality, religion, ability, etc.) are respected and recognized as a source of strength. Students and faculty are expected to respect differences and contribute to a learning environment that allows for a diversity of thought and worldviews. Please feel free to speak with me if you experience any concerns in this area.

*Updated June 2021*
**Attendance.** Students are expected to attend class regularly and to complete readings on a timely basis so that they can participate effectively in class discussions. In addition, students are expected to take leadership roles in class discussion or exercises. More than three absences (‘excused’ or unexcused’) may result in the failure of the class.

Students who leave during the break will be marked as absent for that class. Absence, early departure, or lateness to class is acceptable only for compelling reasons (e.g., illness, religious observance). Examples of inappropriate reasons for missing class include birthday parties and problems finding parking. It is imperative to notify the course instructor in advance of any anticipated class absence.

Students must read all assigned material and be fully prepared for discussion of the material as well as its application to their own practice experiences. Confidentiality as defined by the NASW Code of Ethics is expected of all class members, in regards to their clients as well as their class colleagues. Further, respect for colleagues must be exhibited; this includes refraining from use of cell phones and other electronic devices that distract from the class discussion. Students are advised to speak with the Instructor regarding requests to use laptops or other electronic devices during class. All electronic devices must be silenced and stowed out of sight and out of hands.

**IX. Assignments & Grading**

All assignments are due at the beginning of the class for which they are assigned. Late assignments are not accepted. Any exception to this will be made only under compelling circumstances and with the professor’s advance approval. If an assignment due date conflicts with a religious observance, please consult with the Instructor prior to the assignment’s due date.

Professional social workers keep case records, write treatment reports for referral sources and managed care companies, correspond with judges and other professionals, develop policy, and advocate for their clients. All of these tasks require excellent writing skills. Therefore, proper grammar, syntax, spelling, and appropriate referencing (APA 7th edition style) are expected for all assignments. Substantial credit will be deducted from a paper’s grade for gross and repeated writing, spelling, and referencing errors.

**SSW Grading Scale:** Below is the grading scale for the MSW program

<table>
<thead>

*Scores to be rounded up at .5

**Specific Assignments for CSW with Children**

*Updated June 2021*
**Brief Reaction Papers (20% of course grade)**

During the semester, students will complete (3) three Reaction Papers (2-3 pages, double spaced, for each paper), consisting of comments and reflections on the assigned readings for that module. The three Reaction Papers will be completed in Units 2, 3, 4 (one for each Unit). Students are to select a module in each of these three Units in which to focus their papers and should discuss all of the readings for that module.

This assignment is intended to create an avenue for students to explore and raise informed questions and critiques about the readings and the ideas, methods, perspectives they present, and to develop competencies pertaining to social work ethics and values, critical thinking skills, and research-informed social work practice. Students should: thoroughly describe (1) the main themes of the readings; (2) (at least) one issue or concept that was interesting or pertinent to the student’s practice; and (3) one question or dilemma that came up for the student in regard to the reading.

Grading of the Reaction Papers will focus on evidence of student’s understanding of the pertinent theoretical frames and strategies for engaging and intervening with children as well as in bringing information (e.g., practice intervention approaches, evidence-based research findings, social justice, and diversity issues) from the course readings together with the practice experiences from the field placement.

**Semester Project: Case Analysis**

This assignment is divided into two parts: Part One is intended to reflect the course materials on assessment and engagement strategies with children and their families, while the Part Two reflects the course materials on therapeutic interventions with this population along with the theoretical underpinnings of these interventions.

Students are invited to focus this assignment on a child client—from the assessment and engagement phase through the intervention stage--from their field placement or current place of employment (if appropriate). However, extreme care should be used to safeguard the identity and personal circumstances of the client and her family. The focus of the paper should be pre-approved by the Instructor. Students should discuss with Instructors about the ethics of writing about a current or recent child client and whether they should secure permission from their Field Instructors/Supervisors before proceeding.

If students are unable to focus on a child client for this assignment, there is an alternative Semester Project assignment (see below).

**Part 1: Assessment and Engagement (30% of course grade)**

In reflecting on a particular child client and her family and ecological environment, as well as drawing on the course readings and lectures, produce a 6-7 page, double spaced paper in response to the following:

a. Reason for referral and client’s presenting problem;

b. Brief review of the following as they pertain to the client, if applicable:
   i. demographic information;
   ii. psychosocial and interpersonal functioning;

*Updated June 2021*
iii. history of trauma and/or loss;
iv. family structure and any relevant cultural attributes;
v. family’s economic and basic needs/challenges
vi. community/environment history, including exposure to social structural constraints (i.e., racism; homophobia; sexism; ableism, etc.)
c. Reflections about challenges experienced with engagement and/or assessment of client and/or family/environmental systems.
   i. Describe and critique the assessment tool or framework used to identify and assess the child client’s presenting problem and overall functioning. If no assessment tool was used, what would you have used and why?
   ii. Describe these challenges;
   iii. Discuss how you identified and addressed these challenges or, upon reflection, how you wish you had addressed these challenges.
d. Reflect on the course readings, lectures, and materials, to explore and discuss subsequent assessment and engagement strategies with future clients who have similar backgrounds and circumstances to this client.

For this assignment, students should use at least four (4) recent research based resources. Papers should also be in APA format. Title page and list of references do not count toward page total. For all specific grading criteria, please see the grading rubric for this assignment.

Part 2: Therapeutic Intervention (35% of course grade)
In reflecting on the SAME child client from Part One, as well as drawing on the course readings and lectures, produce a 6-7 page, double spaced paper in response to the following:
a. Reflections on goals for treatment, including diagnostic status, if applicable;
b. Describe the treatment plan and rationale for this intervention strategy with this particular client;
   i. How well aligned was the assessment of the client with the eventual intervention approach?
c. Describe one therapeutic intervention that is discussed in the Henderson and Thompson textbook (i.e., chapters 5, 6, 8, 10, 11, 12, 13, 15). Critically discuss the appropriateness of this intervention approach with this client. Or discuss why one of these approaches would be a better fit for the client than the intervention currently being used;
d. Describe the termination plan for this client;
e. Reflect on the professional use of self with this client and her family and/or ecological environment.
   i. What personal feelings and/or reactions have emerged in response to this client and/or her system involvement (i.e., countertransference)?
   ii. How have you identified and managed these feelings?
   iii. What have you learned about yourself in working with child clients?

For this assignment, students should use at least five (5) recent research based resources. Papers should also be in APA format. Title page and list of references do not count toward page total. For all specific grading criteria, please see the grading rubric for this assignment.
Semester Project: Alternative Assignment

For students who are unable to focus on a child client for the Semester Project, students should instead complete this alternative assignment. Similar to the case analysis, this project is also divided into two parts; both due dates are the same as those for the traditional project. Students will select and examine a problem area that affects clients in their field placements or in their place of employment (if appropriate), or select a topic from the course that interests them. Examples include: child maltreatment, substance abuse, developmental disabilities, bullying, specific mental health challenge, grief and loss, intimate partner violence, etc. The focus of the paper should be pre-approved by the Instructor by September 16th.

Part 1: Problem Identification (30% of course grade)

In reflecting on the course readings and lectures, as well as on at least four (4) recent research based materials, produce a 5-6 page, double spaced paper in response to the following:

a. Comprehensively describe the scope, demographics, and overall challenges associated with this problem (e.g., who is affected by this problem; how many children are affected? etc.). Are there cultural differences in the manifestation of or risk factors for this problem?

b. Describe the effects of this problem for children and their families;

c. Critique the assessment tools or measures used to identify and assess this problem;

d. Describe the etiology of this problem and how the problem is affected by or manifested in different ecological systems.

For this assignment, students should use at least four (4) recent research based resources. Papers should also be in APA format. Title page and list of references do not count toward page total. For all specific grading criteria, please see the grading rubric for this assignment.

Part 2: Evidence Based Intervention (35% of course grade)

Using the SAME problem that was described in Part 1, students should produce a 6-7 page, double spaced paper in response to the following:

a. Critically appraise one therapeutic intervention that is discussed in the Henderson and Thompson textbook (i.e., chapters 5, 6, 8, 10, 11, 12, 13, 15) and critically discuss the appropriateness of this intervention approach for clients affected by this problem;

i. Based on recent research, what is known about this intervention specifically for this problem area for child clients?

ii. What are the theoretical underpinnings of this intervention?

iii. What are the strengths and weaknesses of this approach?

iv. How likely is this intervention method likely to be used in your field placement with this child client population? Why?

b. Based on recent research, how effective is this intervention for different cultural groups?

c. Describe the ethical considerations for using this intervention strategy to address this problem for child clients.

For this assignment, students should use at least five (5) recent research based resources. Papers should also be in APA format. Title page and list of references do not count toward
Assignment Value: Grades for the class will be calculated based on the following breakdown:

- Attendance & Participation: 15%
- Reaction Papers: 20%
- Semester Project Part 1: 30%
- Semester Project Part 2: 35%

X. Resources

1. Library Research Assistance

Meredith Parker is the social work librarian on the New Brunswick Campus. meredith.parker@rutgers.edu. p. 848-932-6124; Natalie Borisovets is at Newark, Dana Library. natalieb@rutgers.edu. 973-353-5909; Katie Anderson is at Camden, Robeson Library. Katie.anderson@rutgers.edu. 856-225-2830. They are all available to meet with students.

2. Writing Assistance

Success in graduate school and within the larger profession of social work depends on strong writing skills. Several resources are available to help students strengthen their professional and academic writing skills. Writing assistance is available to all MSW students as described below.

All MSW Students

All MSW SSW students: New Brunswick, Camden, Newark, Intensive Weekend, online and blended are eligible to access writing assistance at the New Brunswick Learning Center. Online tutoring is available. https://rlc.rutgers.edu/student-services/writing-tutoring

Newark Students Only

The Newark writing center is available for MSW students on the Newark campus by appointment. Online tutoring may be available. http://www.ncas.rutgers.edu/writingcenter

3. Additional Online Resources

- APA Style
  All students are expected to adhere to the citation style of the Publication Manual of the American Psychological Association, 7th edition (2020). It can be purchased at APA Manual 7th Edition. The Purdue OWL website also provide assistance with APA style https://owl.english.purdue.edu/owl/resource/560/01/

  Purdue OWL Mechanics, grammar, organization

Updated June 2021
XI. Course Evaluation
Rutgers University issues a survey that evaluates both the course and instructor. This survey is completed by students toward the end of the semester, and all answers are confidential and anonymous. The instructor may also choose to conduct a mid-point evaluation.

XII. School of Social Work Mission Statement
The mission of the School of Social Work is to develop and disseminate knowledge through social work research, education, and training that promotes social and economic justice and strengths individual, family, and community well-being, in this diverse and increasingly global environment of New Jersey and beyond.

Course Readings

NOTE: Required readings are to be read before the class in which they are assigned. These readings are either in the required textbooks or on Canvas/Library Reserves. The suggested readings are not required, but are listed simply to provide additional resources about select topics.

UNIT 1: Contexts of Children’s Lives

MODULE 1: Introduction to a Child’s World

TOPIC: We will explore the broad social-ecological framework for child development, including the interconnected environmental settings within which children reside.

Required readings:

MODULE 2: Developmental Features of Childhood

TOPIC: We will explore different facets of child development and explore some of the essential tasks of this stage of human development.

Required readings:
- Henderson & Thompson: *Chapter 2: Developmental & Cultural Considerations*

MODULE 3: Developmental Features of Childhood (continued)

Required readings:

Suggested Readings:
UNIT 2: Assessment of & Engagement with Children and their Ecological Environments

MODULE 4: Understanding Risk and Resilience

TOPIC: We will examine different frameworks for conducting assessment with children and for understanding the myriad systemic factors and issues affecting children, with a particular focus on resiliency. We will also focus on understanding problem differentiation with diverse child populations as well as explore the concept of cultural humility.

Required readings:

Suggested Readings:

MODULE 5: Principles of Assessment & Engagement with Children

TOPIC: We will comprehensively explore the different ecological systems in which children are involved: families, schools, and neighborhoods/communities. We will explore more specifically how to engage families and other adults who are instrumental in children’s lives. We will also focus on specific high risk familial or community environments and consider how to assess and intervene in these environments. Finally, we will explore the importance of understanding intersectionality as work with clients.

Required readings:

MODULE 6: Principles of Assessment & Engagement with Children (continued)
Required readings:

MODULE 7: Principles of Assessment & Engagement with Children (continued)
Required readings:

Suggested Readings:

UNIT 3: Therapeutic Interventions with Children within their Ecological Environments

MODULE 8: Overview of Therapeutic Interventions with Children
TOPIC: In this module we will examine the essential elements and dynamics of diverse therapeutic strategies with children. We will also explore how social justice is intertwined with clinical social work practice.

Required readings:
● Henderson & Thompson: Chapter 3: The Counseling Process

MODULE 9: Clinical Approaches to Working with Families
TOPIC: In this module we will focus on conducting clinical work with children and their families. We will pay particular attention to interventions with families in diverse settings.

Required readings:
● Henderson & Thompson: Chapter 15: Family Counseling

Updated June 2021
**MODULE 10: Clinical Approaches to Group Work with Children**

**TOPIC:** In this module we will explore the group counseling process with children.

**Required readings:**
- Henderson & Thompson: *Chapter 18: Group Counseling with Children*

**MODULE 11: Professional Values, Ethics, and Professional Use of Self**

**TOPIC:** We will explore social work values that guide the assessment, engagement, and treatment/intervention with children and their families. This includes understanding more about the professional use of self, making ethically informed decisions, and initiating thoughtful and ethically sound termination strategies with child clients. We will also review the regulations and guidelines for reporting child abuse in New Jersey.

**Required readings:**
- Henderson & Thompson: *Chapter 4: Legal and Ethical Considerations for Counselors*

---

**UNIT 4: Special Topics in Clinical Work with Children**

**MODULE 12: Working with Children who have ADHD and Disruptive Behavior Disorders**

**TOPIC:** We will examine interventions for working with children and their families who have attention deficit hyperactivity disorder and/or disruptive behavior disorders.

**Required readings:**
- LeCroy, C. W. & Anthony, E. K. (2015). *Case Study 1-1 From Childhood to Young Adulthood with ADHD; Case Study 1-2 Solution-Focused Therapy with Child Behavioral Problems.*

*Updated June 2021*
SUGGESTED READINGS:

**MODULE 13: Working with children who have experienced trauma, grief, loss**

**TOPIC:** We will examine strategies for addressing traumatic reactions in children and/or experiences of grief and loss.

**Required readings:**

- Henderson & Thompson: *Chapter 19: Counseling Children with Special Concerns: Excerpts: Child Maltreatment (pages 630-645) & Death & Bereavement (pages 650-657)*

**Suggested Readings:**

**MODULE 14: Working with children living in complex family situations**

**TOPIC:** We will examine children living in family environments which may be experiencing discord and other challenges. These include divorce, substance abuse, family violence, etc.

**Required readings:**
Module 15: Course Wrap-up & Termination
Required Readings:

XIV. COVID-19 community safety practices

Per University community safety regulations, "face coverings must be worn:
- indoors in shared spaces (e.g., meeting rooms, conference rooms, conference rooms, breakrooms, copy rooms, etc.)
- indoors in classrooms, seminar rooms, lecture halls, etc.
- indoors in private spaces with more than one occupant (shared offices)
- indoors in public spaces (e.g., hallways, restrooms, stairs, elevators, etc.)"

For additional information about community COVID-19 safety practices, please see https://coronavirus.rutgers.edu/health-and-safety/community-safety-practices/

XV. Academic Integrity Policy

As per Rutgers University Academic Integrity Policy, “Students are responsible for understanding the principles of academic integrity and abiding by them in all aspects of their work at the University. Students are also encouraged to help educate fellow students about academic integrity and to bring all alleged violations of academic integrity they encounter to the attention of the appropriate authorities.” All SSW students are expected to review and familiarize themselves with the RU Academic Integrity Policy in its entirety.

As per Rutgers University Academic Integrity Policy, “The principles of academic integrity require that a student: make sure that all work submitted in a course, academic research, or other activity is the student’s own and created without the aid of impermissible technologies, materials, or collaborations; properly acknowledge and cite all use of the ideas, results, images, or words of others; properly acknowledge all contributors to a given piece of work; obtain all data or results by ethical means and report them accurately without suppressing any results inconsistent with the student’s interpretation or conclusions; treat all other students ethically, respecting their integrity and right to pursue their educational goals without interference. This principle requires that a student neither facilitate academic dishonesty by others nor obstruct their academic progress; uphold the ethical standards and professional code of conduct in the field for which the student is preparing.”

Students should review all types of Academic Integrity Violations per the RU Academic Integrity Policy. Below are some of the more common violations, as articulated in Rutgers
University Academic Integrity Policy:

“Plagiarism: Plagiarism is the use of another person’s words, ideas, images, or results, no matter the form or media, without giving that person appropriate credit. To avoid plagiarism, a student must identify every direct quotation using quotation marks or appropriate indentation and cite both direct quotation and paraphrasing properly according to the accepted format for the particular discipline or as required by the instructor in a course. Some common examples of plagiarism are: Copying word for word (i.e. quoting directly) from an oral, printed, or electronic source without proper attribution; Paraphrasing without proper attribution, i.e., presenting in one’s own words another person’s written words or ideas as if they were one’s own, regardless of the nature of the assignment; Incorporating into one’s work graphs, drawings, photographs, diagrams, tables, spreadsheets, computer programs, or other non-textual material from other sources, regardless of format, without proper attribution.”

“Cheating: Cheating is the use or possession of inappropriate or prohibited materials, information, sources, or aids in any academic exercise. Cheating also includes submitting papers, research results or reports, analyses, and other textual or visual material and media as one’s own work when others prepared them. Some common examples are: Prohibited collaboration: receiving research, programming, data collection, or analytical assistance from others or working with another student on an assignment where such help is not permitted; Copying another student’s work or answers on a quiz or examination; Using or having access to books, notes, calculators, cell phones, technology, or other prohibited devices or materials during a quiz or examination; Submitting the same work or major portions thereof to satisfy the requirements of more than one course without permission from the instructors involved; Preprogramming a calculator or other device to contain answers, formulas, or other unauthorized information for use during a quiz or examination; Acquiring a copy of an examination from an unauthorized source before the examination; Having a substitute take an examination in one’s place; Submitting a purchased or downloaded term paper or other materials to satisfy a course requirement; Submitting as one’s own work a term paper or other assignment prepared, in whole or in part, by someone else.”

Any faculty member or academic administrator who becomes aware of a possible academic integrity violation must initiate a formal complaint with the Office of Student Conduct and the SSW’s Academic Integrity Facilitator (Laura Curran at lacurran@ssw.rutgers.edu). The AIF deciding the case (the “adjudicator”) shall notify the accused student of the allegation in writing or by electronic communication within fifteen working days of the time the faculty member becomes aware of the alleged violation.

Once the student has been notified of the allegation, the student may not drop the course or withdraw from the school until the adjudication process is complete. A TZ or incomplete grade shall be assigned until the case is resolved. For more information, see RU Academic Integrity Policy and Procedures for Adjudicating Academic Integrity Violations.

XVI. Disability Accommodation
Rutgers University welcomes students with disabilities into all of the University's educational

Updated June 2021
programs. In order to receive consideration for reasonable accommodations, a student with a
disability must contact the appropriate disability services office at the campus where you are
officially enrolled, participate in an intake interview, and provide documentation:
https://ods.rutgers.edu/students/documentation-guidelines.

If the documentation supports your request for reasonable accommodations, your campus’
disability services office will provide you with a Letter of Accommodations. Please share this
letter with your instructors and discuss the accommodations with them as early in your courses
as possible. To begin this process, please complete the Registration form on the ODS web site at:
https://ods.rutgers.edu/students/registration-form.

XVII. Other Resources
Our school is committed to fostering a safe, productive learning environment. Title IX and our
school policy prohibit discrimination on the basis of sex, which regards sexual misconduct —
including harassment, domestic and dating violence, sexual assault, and stalking. We understand
that sexual violence can undermine students’ academic success and we encourage students who
have experienced some form of sexual misconduct to talk to someone about their experience, so
they can get the support they need.

Confidential support and academic advocacy are available through the Rutgers Office on
Violence Prevention and Victim Assistance, 732.932.1181, http://vpva.rutgers.edu. Services are
free and confidential and available 24 hrs/day, 7 days a week.

Active Shooter Resources: Over the years, there has been an increase in the number of active
shootings on campus. It is important that you know what to do in cases there is an active shooter
on campus. Please go to this site to retrieve information that will reduce your personal risk in
